Discover Sustainable Closure Solutions by the Fresh-Lock team at Interpack 2023

Industry-leading closure technology helps brands improve sustainability while keeping products protected and consumers happy

APPLETON, Wis. – [Fresh-Lock® closures](#), a leading brand in reclosable flexible packaging technology, has been dedicated to sustainability as a manufacturer of recyclable closures for over 30 years. Interpack 2023 attendees are invited to visit the Fresh-Lock team in Hall 9, stand J32, May 4-10 in Düsseldorf to discover how the Fresh-Lock team collaborates with brands to work toward positive environmental impacts in flexible packaging.

Sustainable Solutions for Reclosable Flexible Packaging

The Fresh-Lock® team will showcase the 8000 Series, a portfolio of PE sliders, compostable zippers, polyethylene zippers, and a variety of other feature-packed closure solutions that prioritize recyclability and the consumer experience. Fresh-Lock® 8000 Series is designed to target circularity and waste elimination with minimum reduction in production efficiencies, helping brands stay agile while navigating the complex landscape of sustainable flexible packaging.

Notable closures in the 8000 Series include:

- Fresh-Lock® PE Ergonomic Slider
- PE Child-Guard® Track & Slider
- Fresh-Lock® Particle Resistant Closures
- Fresh-Lock® Multiplex Zipper
- Fresh-Lock® Triple-Lock Zippers
- Fresh-Lock® Compostable Zippers
- and more!

To learn more about Fresh-Lock® leading closure solutions and services, visit the experts at Interpack, Hall 9 Stand J32, or ask a question via the Fresh-Lock [contact page](#).

To arrange a press interview with a Fresh-Lock team member, reach out to the press contact listed below. English, German, Spanish, and French speaking representatives are available for interviews.

###

About Fresh-Lock® Flexible Packaging Closures

The Fresh-Lock® brand is the market leader in press-to-close zipper and track & slider reclosable solutions for flexible packaging. With a solution for practically any packaging need, our closures help drive consumer loyalty and brand differentiation through functional benefits. The Fresh-Lock team offers specialized packaging machinery and quality components for fast and efficient track and slider applications.

Our solutions include the child-resistant Child-Guard® slider and the Fresh-Lock® 8000 series, a line of sustainable closures designed for flexible packaging. The Fresh-Lock® brand of products is designed and produced by Presto Products, a business of Reynolds Consumer Products.
